Serving Clallam, Grays Harbor, Jefferson, Kitsap, Mason & Thurston Counties

Annual Report July 2018 - June 2019

Promoting and nurturing early learning communities where children and families thrive.

Family Services

471 children & parents served

We served 471 people in four facilitated Family, Friends, and Neighbor Kaleidoscope Play & Learn (KP&L) groups held in Aberdeen, Olympia, and Shelton. Monthly parent mini classes took place in our St. Pete Family Medicine KP&L groups. Medical residents presented on a variety of health topics. Our developing Parents as Teachers program served 12 families.

Parents reported feeling more connected to their peers, more ability to access community resources like health care; played more with their children; and learned how to help prepare their children for school. Bilingual staff served hard to reach families in Spanish & English. Additionally, Margie's Crisis Nursery helped provide and pay for emergency child care to children, ages 3 months to 6 years old, whose parents were experiencing a crisis.

Family Services major supporters:

Raising A Reader 1,225 Children served

Raising A Reader (RAR) promoted early literacy skills at 36 early learning sites that included center and family childcare, plus home visitation programs in Grays Harbor, Mason, and Thurston counties. Red book bags with four unique high-quality books that represented the home languages of children served, went home weekly. Within the RAR classrooms, families learned about fostering literacy at home and providers used the RAR program to enhance the connection between home and school. Our year-

end evaluation demonstrated that the program has a big impact on families and their children. A parent shared, "My son beamed when he recognized that the page was written in Punjabi and was very proud of himself to be able to count in both languages. Seeing his native language in one of his books was important to us." And from another "The books are great and not what he would pick at a store or library, more educational so we read more often now".

Raising A Reader major supporters:

Early Achievers is Washington State's effort to build higher quality child care. A main focus this year was supporting child care sites reach a level 3 rating through training and coaching services. We helped our providers reach the highest percentage of rated level 3-5 in the state. We implemented innovative strategies: creating a "Quality Standards Advisor" team focused on helping sites achieve a Level 4+ rating; delivering a hybrid coaching + training professional development model of service to providers; and successfully collaborating with local school districts on kindergarten readiness transition.

Infant-Toddler Consultation

Beyond Early Achievers coaching, targeted funding allowed CCAC to deliver supplemental coaching services to the educators who work with our region's youngest children. Infant and toddler caregivers must understand the unique needs and abilities of children birth to 2.5 years old and this year our coaches supported that understanding in 55 different licensed facilities. We are especially proud of our work with the 42 individual child care providers who benefited from using the strengths-based coaching model, "Filming Interactions to Nurture Development" (FIND). FIND is a video coaching program that uses select clips of the provider engaging with their children to reinforce developmentally supportive interactions.

Professional Development

CCAC promotes ongoing professional development for early learning educators by providing classes, in services, and on-site coaching. This year we offered 408 hours of training on many early learning topics to directors, teachers, and family childcare providers. In addition, our annual conference in Grays Harbor County provided 6 hours of training to 130 participants. In 2018, we provided more leadership training and resources to child care center directors in Clallam, Kitsap, and Thurston counties. Good leadership drives and sustains high quality programs for children!

Safe Kids 4,300 Children served

Safe Kids Thurston County distributed over 1,500 safety items to families in our community. This included safe sleep board books, portable cribs, and sleep sacks to new parents; TV tip over prevention straps; home and infant safety items to low income families; & bike helmets. We partnered with police and fire departments and child care providers to distribute trigger locks, smoke alarms, choke testers, and car seats. We also provided a 40-hour Child Passenger Safety Technicians course for more professionals to conduct car seat safety checks in our area. This year we hosted the Swim into Summer Safety

Fair, raising awareness of swim lessons as a lifesaving tool to prevent drowning. Over 150 kids & parents joined with us and community partners to learn about all sorts of summer safety tips!

Services & items we distributed: 179 car seats checked, 10 car seats, 299 cable locks, 26 smoke alarms, 10 TV safety straps, 180 safe sleep books, 310 home and infant safety, 89 children's books on safety, 78 choke testers, 78 flashing lights, 28 cribs, and 153 bike helmets.

Safe Kids Thurston County major supporters:

Caring Kids Volunteers

126 parents and kids volunteered together at monthly Caring Kids projects that partner with other nonprofit organizations in our community. Each month, our early learning staff created a volunteer activity that is age appropriate and engaging for kids 2-5 years old, while also being enjoyed by children up to age 12 and their parents.

Block Fest

Block Fest traveled to 11 schools and community organizations throughout this past fiscal year. Over 1,045 young children under the age of eight went through the five interactive block building stations and enjoyed hands-on math and science learning experiences. Block Fest offers the opportunity for parents to help their children become math and science thinkers while reinforcing the power of play.
