# Financial Report | FY2019 - 2020

## WHERE DOLLARS COME FROM TOTAL: \$3,857,491

Government Contracts - Early Achievers	\$1,896,163
Government Contracts - ECEAP	\$1,266,513
Government Contracts - Infant Toddler	\$202,453
Government Contracts - Other	\$246,271
Training Fees	\$26,471
Individual Contributions	\$37,555
Corporate & Foundation Grants	\$128,971
United Way Grants	\$14,275
Other income	\$6,704
Interest income	\$32,116

## WHERE DOLLARS ARE SPENT TOTAL: \$3,751,425

Early Achievers	\$1,482,342
Child Care Aware & Parent Education	\$98,778
Training & Consultation	\$157,263
Infant Toddler Consultation	\$205,451
Early Childhood Education & Assistance Program	\$1,185,383
Raising A Reader	\$58,359
Safe Kids Coalition	\$56,480
Other Programs	\$194,597
Management & Support	\$262,445
Fund Development	\$50,327

**Note:** At the end of the fiscal year, Child Care Action Council received a performance award from Child Care Aware of Washington for \$105,073.35. These funds are restricted to contract activities through the Early Achievers and Core Services programs. Child Care Action Council reserved these funds to respond to the unknown future that may result in budget cuts to our contract due to the pandemic.

communities where children and families thrive.*

## Family Services

► **354** children & parents served

Our Family, Friends, and Neighbor Kaleidoscope Play & Learn groups delivered on-site sessions in Aberdeen, Olympia, and Shelton before transforming into lively virtual groups, serving a total of 329 children and caregivers. Our partnership with St. Pete Family Medicine residents provided monthly parent classes. These mini classes moved to online presentations during the pandemic.

The Parents as Teachers program served 29 children and parents in person and transitioned to phone and virtual services during the pandemic. Parents expressed gratitude for the sustained connection to their peers, staff, and vital local resources in their home languages. Families embraced additional opportunities to learn and practice English for themselves and their children.

### Family Services major supporters:

The Family Partnership Early Learning Center and Shelton Early Learning Center are ECEAP Centers operated by Child Care Action Council in partnership with:

## ECEAP

► **162** Children served

More than just preschool, our Early Childhood Education & Assistance Program (ECEAP) tailored services and met the needs 162 families enrolled in our program. Our staff worked to ensure that families' basic needs like housing, food and healthcare were met, especially important during the pandemic. Families received support on how to be their child's first and most important teacher with online resources available. Additionally, food and educational materials were delivered directly to our family's doorsteps.

## Raising A Reader

► **1,034** Children served

Raising A Reader promoted early literacy skills at 36 early learning sites that included centers and family childcare, plus home visitation programs in Grays Harbor, Mason, and Thurston counties. Red book bags with four unique high-quality books that represented the home languages of

children served, went home weekly. Within the Raising A Reader classrooms, families learned to strengthen literacy routines at home and providers used the RAR program to enhance the connection between home and school.

### Raising A Reader major supporters:

## Safe Kids

► **1,870** Children served

Safe Kids Thurston County distributed over 2,000 safety items to families in our community. This included safe sleep board books, cribs, child proofing kits, child ID kits, and sleep sacks to parents in need; bike helmets were distributed to families at participating clinics; pedestrian safety books were provided during International Walk to School Day; safety calendars were distributed to local organizations and preschool programs, and we stocked loaner life jacket stations.

Safe Kids also provided a three-hour technicians course for Child Passenger Safety techs to conduct car seat safety checks in our area. Due to the pandemic, the 2020 Safe Kids Swim into Summer event transitioned to an online safety platform partnering with local safety organizations providing information to caregivers on how to keep their kids safe all summer long.

### Safe Kids Thurston County major supporters:

## Pandemic Response

Child Care Action Council is committed to the health and well-being of the families and communities we serve during the COVID-19 crisis. Staff continued to work from home and support child care providers and families throughout our service area. We focused on providing updated information regarding the COVID-19 crisis for child care providers, and helpful resources and community supports to the families we serve.

## Block Fest

Block Fest traveled to 4 schools and community organizations throughout this past fiscal year. Over 445 young children under the age of eight went through the five hands-on block building exhibits. Block Fest offers the opportunity for parents, and their children, to become more knowledgeable about the importance of early math and science learning while reinforcing the power of play.

## Early Achievers

Our team of 15 coaches provided individualized supports to over **285 licensed child care sites**, assisting them in quality improvement work. We were able to effectively pivot to virtual only supports related to the pandemic, focusing on provider business, financial and emotional needs. We delivered supplies, facilitated grant applications, assisted in navigating challenges, and directed providers to helpful resources. In addition, our team was supplemented by a mental health consultant who was able to directly support providers, children and families with their social and emotional needs.

## Infant-Toddler Consultation

Targeted funding allowed us to deliver extra coaching services and written resources to educators who work with our region's youngest children: those birth to age 2 ½. Mid-year, our infant and toddler coaches switched to virtual coaching in response to the COVID-19 pandemic. In spite of the challenges in 2020, we reached **35 facilities** with supports targeted to this age range. This year we are especially proud of our work that helped caregivers screen young children for possible developmental delays. **153 teachers** were trained to use the Ages and Stages Questionnaire screening tool with families and children in their programs.

## Caring Kids

302 parents and kids volunteered together at monthly Caring Kids projects that partner with other nonprofit organizations in our community. Each month, our early learning staff created a volunteer activity that is age appropriate and engaging for kids 2-5 years old, while also being enjoyed by children up to age 12 and their parents.

## Professional Development

CCAC is the agency many early learning professionals turn to for classes on topics related to child care quality improvement. This year we offered a robust calendar of courses, including many virtual classes that allowed providers in very rural areas to take classes that would normally involve travel to a classroom location. **1727 child care providers** attended classes on topics such as curriculum development; observation and assessment; trauma-informed care; early math, science, and literacy; inspiring environments; adapting for COVID-19; and more.
